NTSCH 2025 Fall Workshop September 19-20, 2025

Keynote Speaker Announcement

Louis F. Damis, Ph.D., ABPP, FASCH

"Interactive Experiential Clinical Hypnosis for Developmental Trauma Disorders"

Unlocking Healing for Complex Trauma

Join our specialized workshop on Complex PTSD treatment, designed for clinicians seeking advanced techniques in trauma therapy. Learn to address implicit memory in trauma-related disorders and implement Normative Implicit Clinical Hypnosis for deep, lasting change.

Key takeaways include:

✅ Polyvagal-based interventions for attachment repair

✅ Memory reconsolidation techniques to transform traumatic memories

✅ Strategies beyond CBT for modifying egosyntonic negative beliefs

Ideal for both new and experienced practitioners, this workshop blends hypnotic and biobehavioral techniques into a phase-oriented treatment model for CPTSD and attachment disorders.

Enhance your trauma therapy skills –register now!

The workshop will be a hybrid of in person with virtual access.

$350- *includes 16.5 hours of CEU's, a year membership with free webinars throughout the upcoming year.*

Location: 12700 Preston Road, Dallas, TX 75230
